DURANT NURSERY COMPANY

CATALOGUE AND RETAIL
 PRICE LIST NUMBER TWO

DURANT, OKLAHOMA
 U. S. A.

QOUR Trees and ornamental stock mark a standard of excellence that very few nurseries have attained.

QTHE Largest and most perfectly equipped nursery in the state, and in growing our trees we have made a thorough study of varieties best suited for Oklahoma and adjoining states.

Corrections

On Page 8, under the caption "APPLES," "Staymen's Witness" should read "STAYMEN'S WINESAP."

On Page 18, under the caption "RASPBERRIES," where price says "2.00 per 10," should read **\$2.00 Per 25.**

A MESSAGE: *To our customers and friends. Don't fail to read it.*

In this little booklet we will not take up your time with elaborate descriptions of all the different varieties, for what you want to know is what tree or plant will bring the best results.

We have therefore tried to give you what information you want in the most brief and comprehensive way possible, recommending varieties that have been tested and found to be best adapted to our climate.

Varieties marked "*" are recommended.

Varieties marked "special" are especially recommended and are usually higher priced, price being indicated after the word "special."

MISTAKES are rare as we have expert men to grow and pack trees for shipment, but if mistakes do occur we will gladly correct them, if notified promptly on receipt of shipment, and if any stock proves untrue to label we will either replace the same free of charge or refund the purchase price, but in no case will we be responsible for more than the price received for the stock.

WE HAVE A MOST BEAUTIFUL LOCATION, at the west end of Main street and visitors are always welcome.

Local and long distance telephone in the office.

PRICES: We could make lower prices by lowering our standard but experience has taught us that in planting trees the price is the last thing to be considered as it is quality that counts.

We therefore offer you only the best, at a price based on cost of production allowing a reasonable profit, but we will not consider competition with stuff when cheapness is its chief merit.

WE PAY THE FREIGHT on all orders for \$5.00 or over to points in Oklahoma and adjoining states.

We furnish a booklet giving transplanting instructions with each shipment.

DISTANCE FOR PLANTING ON GOOD AVERAGE SOIL

Apples, 25 feet apart each way or 20 by 30 feet, 69 trees per acre

Peaches, 20 feet each way, 108 trees per acre.

Pears, 20 feet each way, 108 trees per acre.

Plums, Prunes, 18 feet each way, 134 trees per acre, or 16 feet each way, 133 trees per acre.

Grapes, 10 feet each way, 433 vines per acre.

Figs, 10 feet each way, 433 trees per acre.

Blackberries and Raspberries, 8 by 3 feet, 2,760 plants per acre.

Dewberries, 5 by 3 feet, 3,290 plants per acre.

Strawberries, 4 by 2 feet, 6,000 plants per acre.

Try our trees and you will see the difference.

Very respectfully,
DURANT NURSERY COMPANY,
Durant, Oklahoma.

JAPAN PERSIMMONS—75 cents each, \$6.00 for 10, \$50.00 for 100.

Introduced from Japan—their best native promological product. Leaves are broad and burnished, having a beautiful appearance in the late fall; usually very prolific, often bearing at three years of age. The fruit as well as the foliage is very beautiful and is of a mild, buttery, rich flavor.

A very fine tree for the home both on account of the excellent fruit and as an ornament.

Ripens from August to November.

POMEGRANATE—50 cents each.

A small tree, or shrub, from As'ia, grown both for ornament and fruit, showy leaves and form, rich colored red flowers, peculiar showy fruit. The bark has medicinal properties.

FIGS—50 cents each, \$4.00 for 10, \$35.00 for 100.

We grow all the varieties best suited for North Texas and Oklahoma, where they are frozen back in extremely cold weather but put up shoots in the spring which bear fruit on the one year growth.

- ✓ **GOOSEBERRIES**—25 cents each, \$2.00 per 10.
- ✓ Houghton, round, rich, acid, good.
- ✓ Downing, pale green, good quality.

CURRANTS—25 cents each, \$2.00 for 10.
